

Premium Sheds are perfect for your storage needs at home, camp, or at your business.

Pole Buildings are available in various sizes.

Pole Buildings

Standard Features:

- Building interior heights range in 1 ft. increments from 8 to 20 ft.
- Build year round, even during the winter months
- Buildings are built with 4" x 6", 6" x 6", or laminated posts
- Typical spacing is 6 ft. on center post and trusses
- 25 different color options
- Designed and engineered for the Upper Peninsula weather

Site Preparation & Permits:

- We can do a free site inspection to evaluate your building needs anywhere in the U.P.
- We can take care of all permits required to complete building
- We can also take care of any site preparation needed
